

NEW International PhD course on Food Related Learning!

An international graduate level course in Food Related Learning is currently under development. This course aims to explore the topic of food related learning through a highly international and interdisciplinary lens. Course topics will include research framing and methodology for food related research, decolonizing research, pedagogical tools and strategies, systems-based approaches to research, and more!

This course will be run during the last couple of months of 2025. It will be entirely virtually so students from all over the world will be able to take part and it will be free of charge.

If you are interested in the course please contact Gabrielle Edwards (gabrielle.edwards@gu.se) or Christel Larsson (christel.larsson@gu.se).
